

Optimize financial
and operating models

The speed of business is accelerating, and adaptability is the new competitive differentiator.

Customers are not satisfied with the status quo.

Opportunities to give them more are never missed—they are taken by competitors that adapt the fastest.

Business model disruption is blurring industry lines.

With recurring revenue models, all companies are now in the services business.

Product-centric organizations

Service-centric organizations

-
- Subscription services
 - Products sold through service models
 - Project-based services: consumption model
 - Project-based services: fixed fee model

Financial services

Government

Healthcare

Manufacturing

Retail

Yet traditional ERP systems don't allow for rapid change.

72% of CFOs believe their company will need to completely rethink processes and operating models to be more resilient.¹

49% of CFOs say restructuring their business/portfolio to thrive in the face of change is a top priority in 2021.²

76% of CFOs are dissatisfied with cross-functional collaboration to bridge the gap between operational and financial planning.³

73% of employees want flexible hybrid work options to remain post-pandemic.⁴

Finance leaders wear multiple hats.

Savvy financial leader

Finance-first innovator to deliver predictive business insights, accurate performance analytics, economic guardianship, and organizational governance.

Resilience specialist

Business advisor to build business continuity plans that analyze different futures, find new sources of value, improve cash flow, and guide investment decisions.

Transformation catalyst

Operational strategist to deliver more value with fewer resources through business experience optimization across financial, operating, and people models.

Roadblocks to success

Lack of business visibility and insights.

Manual, inefficient and error-prone processes leading to frustrated employees, low profit margins, and increased costs.

High employee turnover as people are burnt out due to continual change and disruption.

Legacy systems don't support project or subscription-based models.

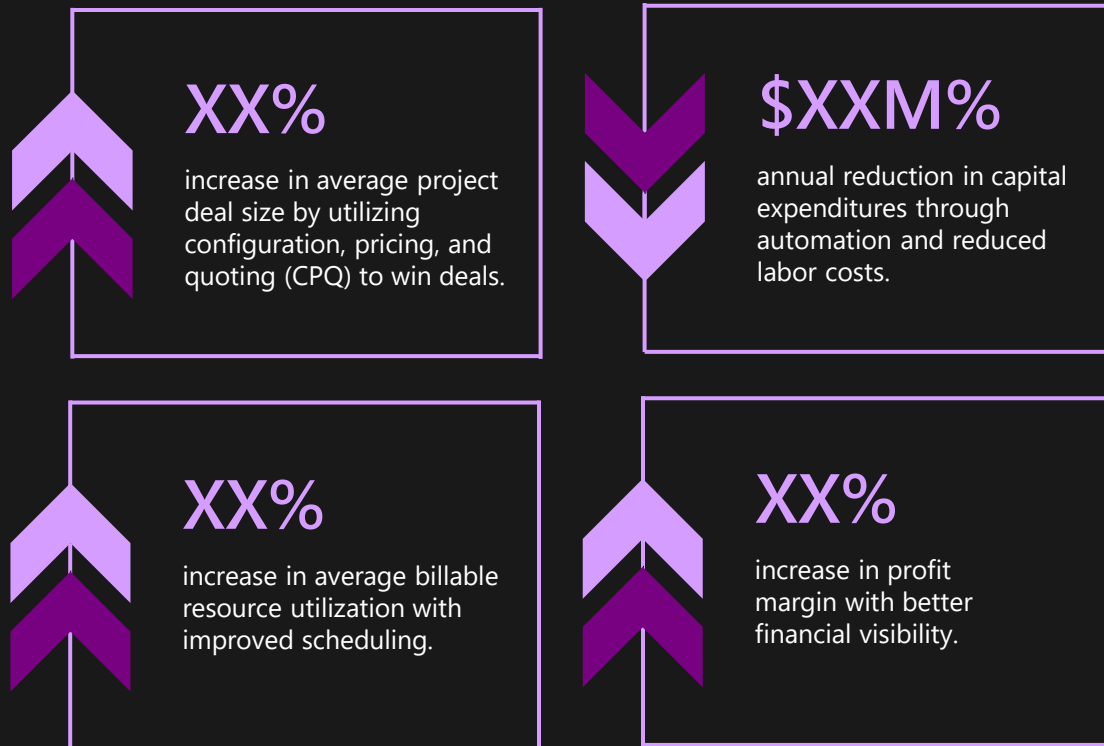

Minimal disruption tolerance including lack of investment capital and IT resources.

DO NOT PRESENT WITHOUT CUSTOMIZATION

We believe

<Customer Name> can increase top-line revenue by \$XXM, reduce costs by \$XXM/year, and improve operational efficiency by XX% per year while also improving customer experiences.

With your continued partnership, we believe we can validate these beliefs with you in the days ahead.

- Automate workflows to reduce costs and sharpen strategic focus.
- Connect more use cases to address your specific challenges.
- Leverage your composable digital platform investments.
- Unlock the full potential of your data.
- Achieve your desired business outcome.

Success depends on your ability to collaborate and continuously adapt business models.

Optimize financial and operating models.

Our customers are leaders in the digital transformation that is reimagining business today to create a better tomorrow. We are proud to provide limitless potential to the world's most innovative businesses with data-first applications that help you:

Adapt faster.

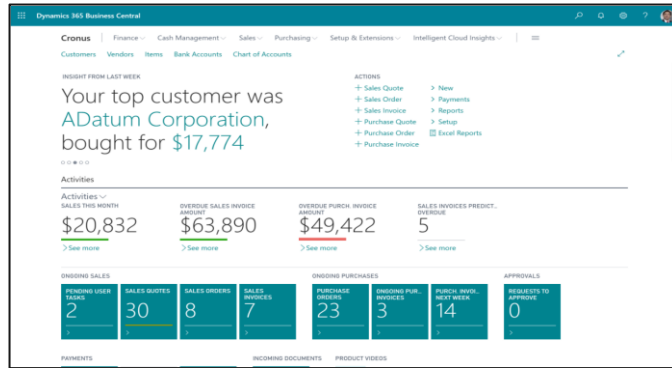

Work smarter.

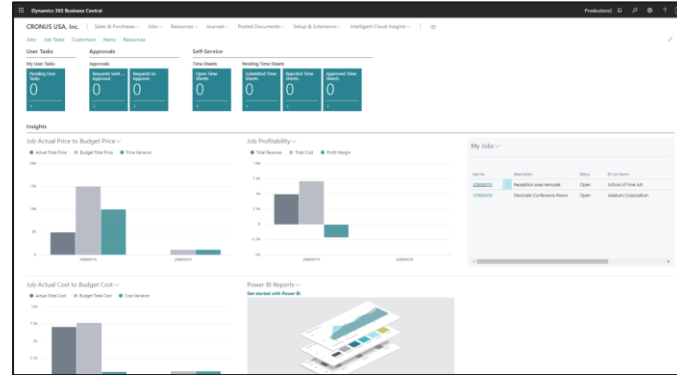

Perform better.

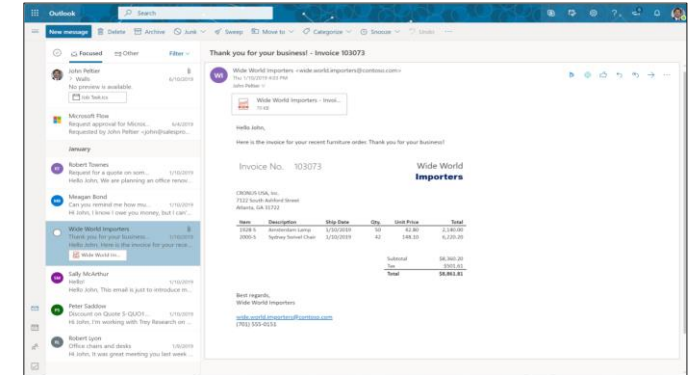

Adapt faster.

Evolve financial constructs,
minimize risks, and reduce costs,
all while quickly adapting to
changing recurring revenue pricing
and global regulations.

Easily adopt project accounting and revenue recognition that support consumption and/or fixed-fee pricing models.

Quickly onboard people to support new operating processes to help your people and business thrive.

WWF Italia makes preserving the planet easier with Dynamics 365.

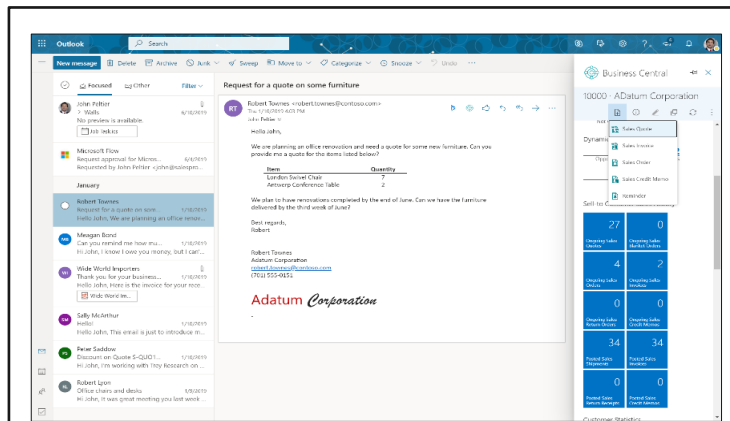

After adopting Business Central, WWF Italia gave up its three servers and realized immediate savings. And the project management staff are free to concentrate on projects rather than manually grinding through columns of figures. That created much-needed breathing room in the nonprofit's strict budget. We have a very tight budget, and although costs constantly increase, it's difficult to get the approvals we need to expand those funds. Cost-effective, flexible systems are absolutely essential for us."

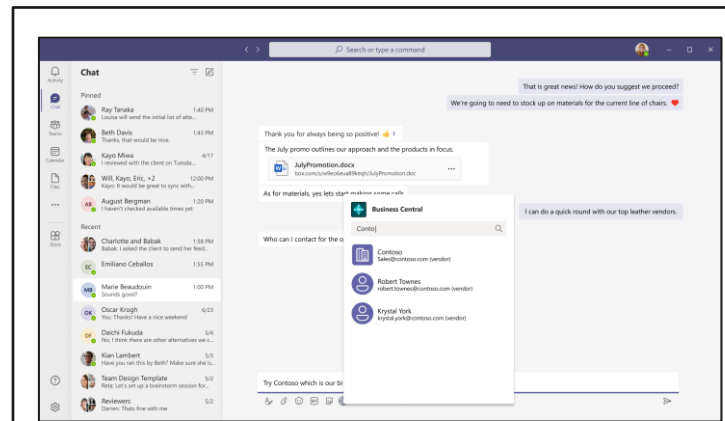

Bruno Carlo Ravaglioli, deputy general director

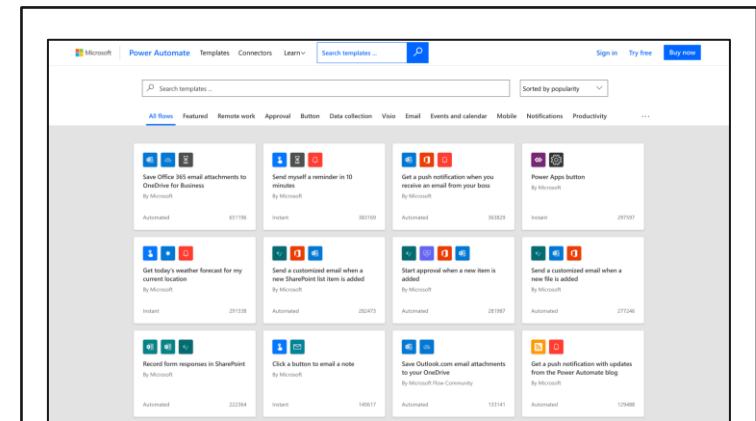

Work smarter.

Empower your people with the right information within the flow of work to rapidly adapt, make more confident decisions, and drive better outcomes.

Elevate teamwork using interoperability with Microsoft 365 to keep teams connected, boost productivity, and improve new business process adoption.

Enable robotic process automation to speed cycle times and reporting, while allowing your people to focus on more strategic, transformational initiatives.

Mall of America simplifies
employee workflows to make
daily **operations more efficient.**

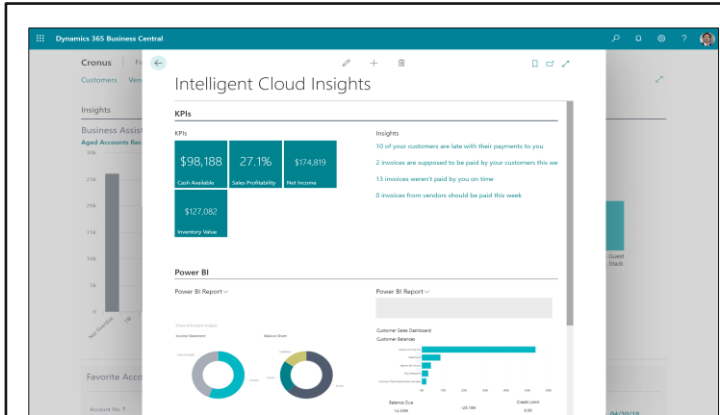

We've modernized the way we work using
the power of Microsoft and the power of
Business Central. At the end of the day, this
was to help our team members feel
successful for the future."

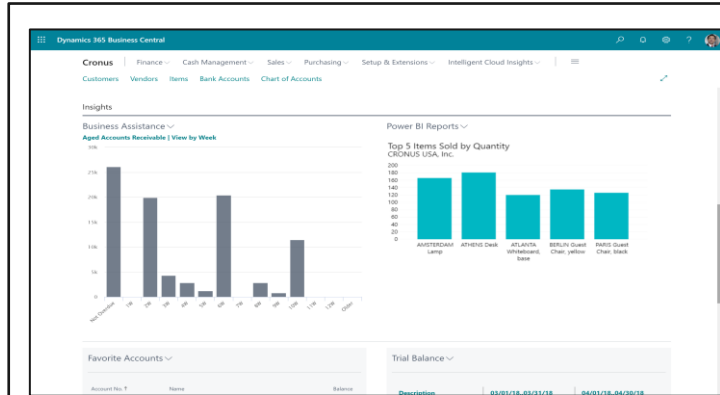

Eric Engstrom, IT project manager

Perform better.

Increase financial visibility and compliance across the organization.

Optimize decision-making with effective cash flow management and forecasting.

The screenshot shows the 'Item Details - Invoicing' screen in Dynamics 365 Business Central. It features a sidebar with navigation options like 'Items', 'All', 'Search', '+ New', 'Delete', 'Process', 'Item', and 'More'. The main area displays a table of items with columns 'No.' and 'Description'. A 'Details' panel is open on the right, showing 'Item Details - Invoicing' for item 1896-S.

No.	Description
1896-S	ATHENS Desk
1900-S	PARIS Guest Chair, black
1906-S	ATHENS Mobile Pedestal
1908-S	LONDON Swivel Chair, blue
1920-S	ANTWERP Conference Table
1925-W	Conference Bundle 1-6
1928-S	AMSTERDAM Lamp

Item Details - Invoicing	
Item No.	1896-S
Costing Method	FIFO
Cost is Adjusted	Yes
Cost is Posted to G/L	Yes
Standard Cost	0.00

Enable global expansion with support for 25 languages, localization, and no code interface changes.

Sicuro accesses insights needed for business results with Dynamics 365.

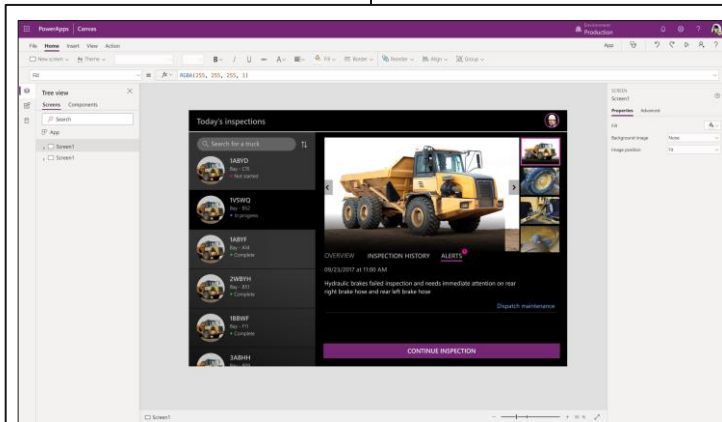

In order to do a lot of work with a relatively small team, we need to have a real-time overview of what is happening within our company—anywhere, and always. We now have the insights we need, thanks to the new Microsoft Dynamics 365 Business Central. In addition, the solutions works very well with the entire Microsoft 365 suite.”

The power of the Microsoft cloud

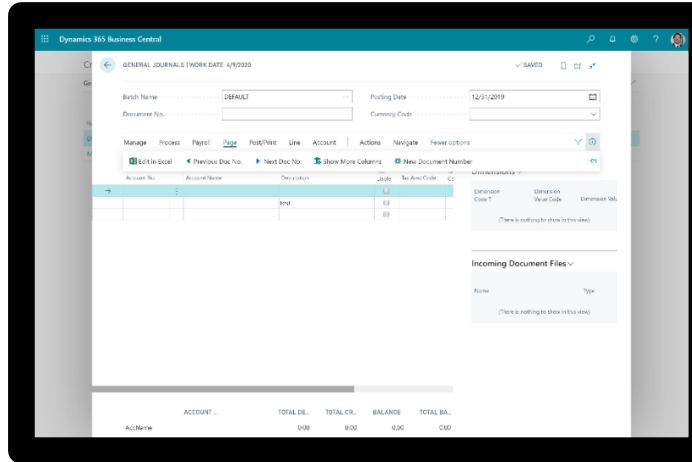

Turn connected data into impact.

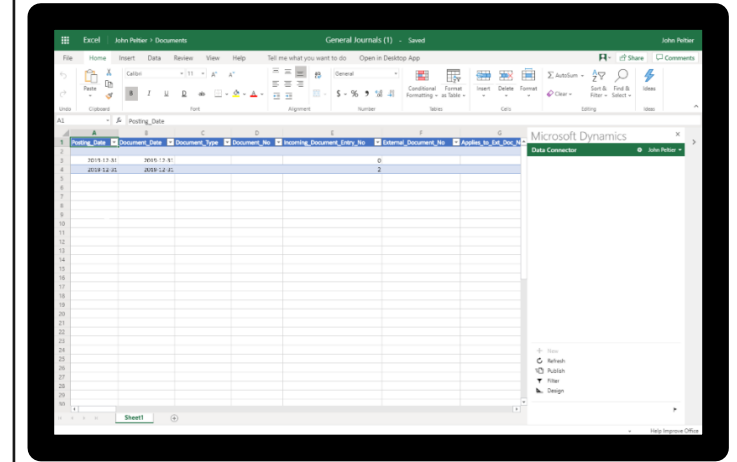

Dynamics 365 Business Central with Excel

Access Excel within Business Central to view data and create transactions such as general ledger journals.

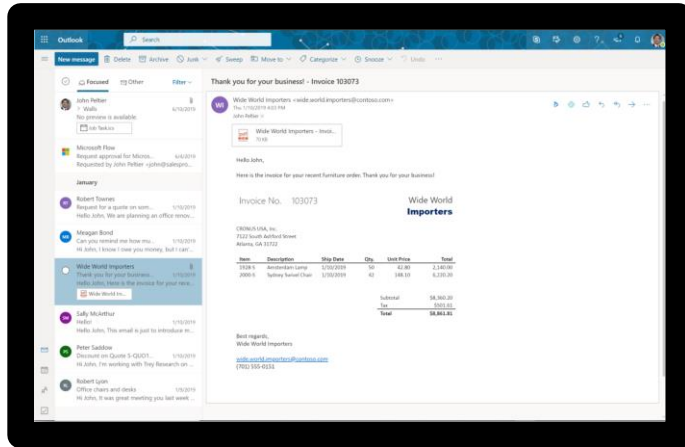

Export data from Business Central to Excel for efficient data entry and accuracy, and then publish data back to Business Central.

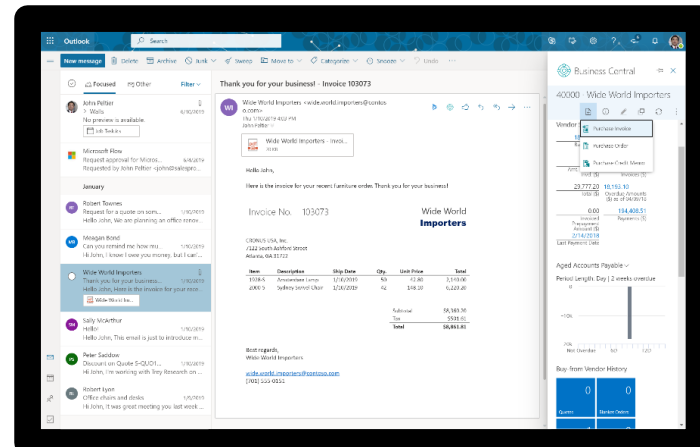

Easily analyze transactions using familiar Excel functionality, add additional data, and publish.

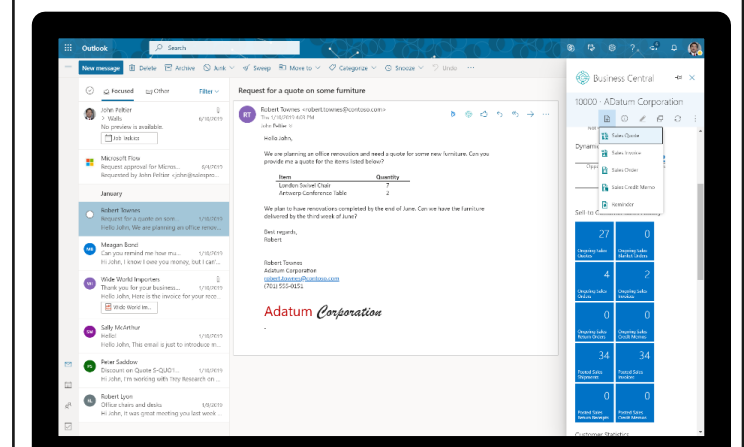

Dynamics 365 Business Central with Outlook

Interact with customers and vendors directly from Outlook to accelerate transactions and business decisions.

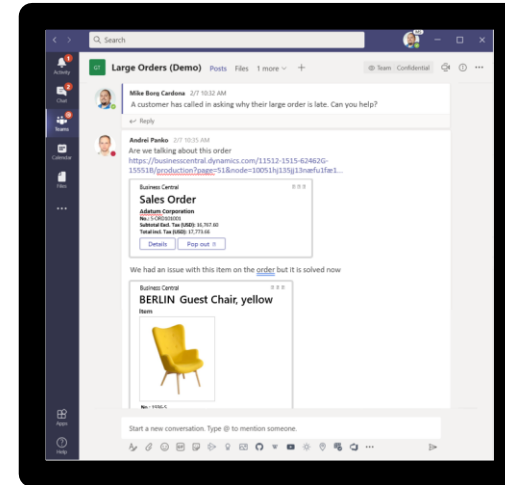

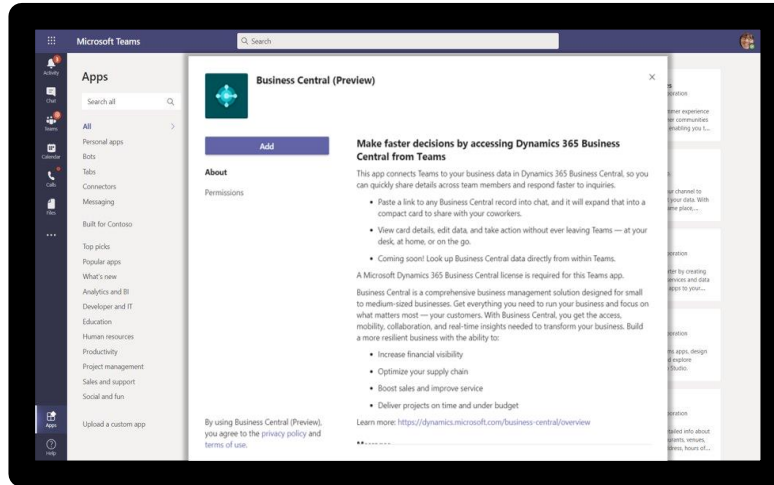

Promptly manage inquiries, service requests, or process payments to accelerate the sales cycle.

Get insights into customer history, previous discounts, and more without leaving Outlook.

Dynamics 365 Business Central with Teams

Make faster decisions by sharing Business Central data within Microsoft Teams conversations.

Paste a link to any Business Central record and it will expand into compact card to share with coworkers.

Easily edit data and take action without switching apps.

How can <company name> stay agile and win more deals?

A winning approach delivers

- Enhanced financial dexterity, operational proficiency, and organizational capacity.
- Adapt at the speed of business.
- Proactive identification of business segment underperformance, excess costs, under/over utilized resources, and at-risk projects.
- Improved profit margin control.
- Empowered and more productive people.
- Reduced cycle times and faster business insights.
- Finance-first innovation, process automation, and team efficiency.
- Recurring revenue and revenue recognition.
- More

The result: Adaptive business operations that provide a better business experience across financial, operational, and organizational models.
